To Whom it may concern

On behalf of the property owners at 203 and 209 E Savannah Rd Lewes DE 19958 I am petitioning the Lewes Board of Public Works and the City of Lewes to consider waiving or reducing the impact fees that will be associated with the development plans I have submitted to the town. The developers expect a speedy development process that will include a windfall of transfer taxes and perpetual property taxes. In the last 6 years of ownership of 203 E Savannah Rd we have experienced numerous misinformation that have cost us a significant amount of money needlessly. Our development plans will follow the City of Lewes Comp Plan and Zone Book as stated. Thank you Austin and the Board for your attention and consideration

Sincerely

Rich Quill
